

A–C does not involve scoring points.

A

Raise Your Hand to Answer (Simple Method)

Teacher: What is this?

Students raise their hands if they know the answer.

The chosen student answers.

If no one gets it right, move to the next slide.

Note:

Instead of choosing only one student who raises a hand, have all students who want to answer stand up. Let them respond one by one. In a big class, allow only the first ten students who stand. When the tenth student stands, stop and have those ten answer in order.

B

Work in Pairs

Teacher: What is this?

A: Maybe it's a koala.

B: Maybe it's a bear.

If you feel confident, raise your hand.

Only one person in each pair raises a hand. If picked, both stand and say the answer together.

C

Secret-Answer Pair Game (for little kids)

Once you and your partner know the answer,

✋ Put your hand over your mouth 🤫

At the end, everyone calls out:

Teacher: 3, 2, 1!

Students: It's a \_\_\_\_!

Teacher: The answer is... a koala!

If you think, "Oh, maybe this is wrong," you can talk with your partner and change your answer.

D

Work with your group to write your answer on the whiteboard.

Look at the three slides, talk together, and write your final answer.

Teacher: 3, 2, 1, show!

Everyone shows their boards.

Each group reads their answer as one voice.

Group 1: It's a koala.

Group 2: It's an elephant.

Group 3: It's a mouse...

# E

## TV Show–Style Game

### ◆ Overview

A fun guessing game played in groups  
Each group decides the answer order  
e.g. clockwise / rock-paper-scissors  
4 students → order 1–4  
5 students → order 1–5

### ◆ Rules

One student from each group comes to the front  
Whisper the answer to the teacher  
It is not a race → no running  
One answer per slide  
Students must answer in the order decided by the group  
📌 Example (4 students):  
There are 12 questions  
If a group answers correctly on Slide 1 each time,  
→ each student answers 3 times total

### ◆ Points

Correct on Slide 1 → ★★★★★  
Correct on Slide 2 → ★★★  
Correct on Slide 3 → ★  
Incorrect → 0 points

### ◆ Game Flow

Slide 1

Teacher: Look. What is this?

Group discussion (5–10 seconds)

👉 When ready

→ One student from each group quietly comes forward

They whisper answers in order:

Student 1: It's a bear.

Teacher: No, it isn't. → Student returns to seat

Student 2: It's a koala.

Teacher: Correct! → ★★★ → Student returns

Student 3, Student 4...

- Groups that answered correctly stay quiet and observe.
- Other groups continue on the next slide.

Notes:

- If you prefer not to have everyone share the same megaphone, you can give each student a sheet of paper to roll up and use instead. (Discard the paper after the activity.)
- Because students answer on every slide, all 12 questions may take almost a full class period. To keep the game shorter, you can set a time limit, such as ending the game after about 30 minutes. At around 20 minutes, you can announce, "The next one is the final question."
