 Let's learn the months in English while having fun!

Each player needs **one colored pencil or pen**.

Take turns coloring one square at a time.

The first player to get **five in a row—vertically, horizontally, or diagonally—wins!**

The numbers in the squares represent the months (January to December).

When it's your turn, **say the month** in English **before** you color the square.

 About the second worksheet

The other worksheet shows the months written in English.

It's for practicing how to read and recognize the words.

Try reading them out loud!
